## PROFESSIONAL SUMMARY

Versatile Product/Project Manager and Frontend Developer with a background in medical microbiology and over 3 years of experience leading cross-functional teams and building web applications. Skilled in translating complex ideas into strategic and scalable solutions. Passionate about user-centric design, innovation, and delivering impactful products.

## PROFESSIONAL EXPERIENCE

### • Frontend Web Developer – MEST Africa, Ghana

2025 – Present

- Collaborate with cross-functional teams to design and develop user-centric web applications.
- Build responsive and accessible interfaces using HTML, Tailwind CSS, JavaScript, and React.
- Participate in daily stand-ups, sprint planning, and code reviews.
- Translate UI/UX designs into functional websites that are responsive on both desktop and mobile devices.

### • Product / Project Manager – Int+ Technology

2024 – Present

- Led a team of 12 to develop a web application for decentralized last-mile delivery.
- Contributed to the successful launch of “Xperience,” a platform for seamless event photo sharing.
- Received a 20% equity stake for performance and strategic impact.
- Oversaw design and execution from concept to deployment using user-first principles.

- **Project Manager – Interswitch Group, Lagos, Nigeria**  
2022 – 2023

- Delivered key features for Coronation Bank, FBN Quest, and Advans Bank mobile apps.
- Facilitated Agile ceremonies and managed stakeholder communication.
- Utilized data-driven insights to optimize team efficiency and improve outcomes.

## SELECTED PROJECTS

- Adwuma  
React & Tailwind Website for Local Products

A vendor-focused platform showcasing local arts, crafts, and handmade products with multi-image uploads, category filters, and vendor dashboards.

- Xperience  
PWA for Event Engagement

- ABC Library
